

TikTok Affiliate Onboarding

Yellow Basket Setup for Lead Clinical Adopters · The Heart of the Program

This is the program's central mechanic. Your TikTok Shop Yellow Basket is where most of your earnings flow. The 8% physician-tier commission, the audience reach, and the simple patient-distribution loop (QR code on prescription pad) all live here.

Time required: ~2 hours of focused setup, then 1–7 business days for TikTok approval.

Quick Reference

Phase	Steps	Outcome
Account Setup	1–3	TikTok account ready, following GutGuard
Yellow Basket	4–5	Yellow Basket application approved
Content & Compliance	6–7	Welcome video live, commission rate active
Going Live & Patient Distribution	8–9	Live selling + clinic QR distribution
Payout Setup	10–11	TAC earnings withdrawable to bank or e-wallet

Phase 1: Account Setup

Step 1 — Install TikTok

- Download TikTok from the App Store (iOS) or Google Play (Android).
- Use a phone with stable internet and adequate storage for live streaming.
- Recommended: dedicate a device or profile for clinical content to keep personal and professional separate.

Step 2 — Register on TikTok

- Sign up with a professional email or mobile number.
- **Username suggestion:** Dr.[Lastname] or [Lastname]MD for credibility.
- Complete your profile with a clear headshot, specialty, and a short credential line (e.g., “Internal Medicine · Gut Health Educator”).
- Switch to a Business or Creator account under Settings → Account.

Step 3 — Follow the GutGuard Page

- Search and follow the official GutGuard TikTok page.
- Turn on post notifications for product drops, restocks, and brand campaigns.
- Engage with several posts (like, comment) to establish association before applying.

Phase 2: Yellow Basket Application

Step 4 — Apply for Yellow Basket

Path: TikTok → Profile → Creator Tools → TikTok Shop for Creators → Affiliate → Yellow Basket / Showcase application.

Typical requirements:

- Minimum follower count (usually 1,000+)
- At least a few original videos posted
- Valid government-issued ID
- Philippine bank account or e-wallet for payouts

Category: Select Health & Wellness when submitting.

Step 5 — Wait for Yellow Basket Approval

Approval usually takes 1–7 business days. While you wait:

- Post 3–5 educational videos on gut health, probiotics, or common GI complaints.
- Avoid product or treatment claims until approval and disclosures are in place.
- Review TikTok Shop's health product policies and Philippine FDA advertising rules.

Phase 3: Content & Compliance Setup

Step 6 — Create a Welcome Content Piece

A pinned welcome video sets the tone for new patients and viewers. Suggested structure:

- **Hook (3 seconds):** "If you have bloating, IBS, or gut issues — watch this."
- **Credentials:** Name, specialty, PRC license (verbal mention is fine).
- **Coverage:** Gut health education, lifestyle tips, and when GutGuard may help.
- **Disclaimer:** "Content is educational; consult your physician before starting any supplement."
- **Call to action:** "Follow for live consults and product demos."

Pin this video to your profile.

Step 7 — GutGuard Admin Configures Your LCA Commission Rate

Once you confirm Yellow Basket approval to your GutGuard partnership manager, the GutGuard admin will configure your LCA commission rate (8%) in the Seller Center.

- Confirm with your GutGuard contact that you are listed under the LCA targeted plan (8%), not the open plan (6%).
- Once set, GutGuard SynBIOTIC+ appears in your Affiliate Showcase, ready to add to videos and lives.

Phase 4: Going Live & Patient Distribution

Step 8 — Go Live to Sell GutGuard

Pre-live checklist:

- ☐ Stable internet, ring light, clean clinical-looking background.
- ☐ GutGuard product on hand for demonstration.
- ☐ Yellow Basket loaded with the GutGuard SynBIOTIC+ SKU before starting.
- ☐ Disclaimer slide or note prepared (educational content, affiliate disclosure).

Live structure (60–90 minutes recommended):

- Intro, credentials, and disclaimer (5 min)
- Educational segment on gut health (15 min)
- Product walkthrough — ingredients, mechanism, who it's for, who it's not for (15 min)
- Q&A with viewers (ongoing)
- Repeated calls to tap the Yellow Basket (every 10–15 min)
- Closing, thank-yous, and next live schedule

Compliance reminders:

- No guaranteed cure claims.
- Disclose the affiliate relationship.
- Direct symptomatic patients to consult before purchase.
- Stay within FDA-registered claims (CPR No. FR-40000015571456).

Step 9 — Distribute Your TikTok Link / QR to Patients

For in-clinic patients you're prescribing GutGuard to:

- Generate your affiliate product link from the Showcase.
- Convert it to a QR code (qr-code-generator.com or TikTok's built-in profile QR).

Distribution options:

- Print the QR on your prescription pad or a handout.
- Send via Viber or Messenger after consultation.

- Display the QR in the clinic waiting area.

Every scan and purchase is tracked to your affiliate ID, and commissions credit automatically.

Phase 5: Payout Setup

Step 10 — Check Wallet Balance

Path: TikTok Shop → Affiliate → Income / Wallet. You'll see:

- **Pending commissions** — orders still within the buyer's return window.
- **Available balance** — cleared and withdrawable funds.

Commissions typically settle after the buyer's return window closes (~14 days post-delivery).

Step 11 — Add a Payout Method

Path: Wallet → Payout Settings. Add one of:

- Philippine bank account (BPI, BDO, Metrobank, etc.) — the name on the account must match your registered TikTok Shop name.
- GCash or Maya, if supported in your region.

Verify with a small test withdrawal once your first commissions clear.

BIR & Tax Notes

- TAC is taxable affiliate income. Keep records of all TikTok-disbursed payouts.
- If your monthly earnings exceed the VAT threshold, consider issuing official receipts and registering accordingly.
- TAC is paid by TikTok Shop, not GutGuard — your tax filings on this income are independent from your GutGuard ODF and Cashback (which flow through the Doctor Portal).

First-Week Target

Days 1–2: Complete Steps 1–6.

Day 3: Submit Yellow Basket application.

Days 4–7: Post daily educational content while awaiting approval.

Within 48 hours of approval: Run your first soft live.

For questions on TikTok setup, post in the GutGuard LCA Viber community or message your assigned LCA partnership manager directly.

Quick Answers

Top 10 questions · Posted on the Facebook page

If you haven't signed up yet: Scan the QR code at the booth or on the Quick-Start Card. Registration takes 60 seconds. Decisions within 3 business days.

If you're already in: Follow the GutGuard Doctors' TikTok Affiliate Program Facebook page for announcements, peer support, and pinned resources.

The 10 Questions Doctors Actually Ask

Q. What is this, exactly?

A TikTok Shop affiliate program designed specifically for physicians. You earn the 8% physician-tier commission (vs. 6% for non-medical affiliates), plus an Outcome Documentation Fee per patient case you log, plus volume-based Cashback, plus a Travel Incentive at the top tier. The Founding cohort is closed at 100 physicians.

Q. How much can I realistically earn?

A doctor enrolling 20 Peak-package patients during the 90-day pilot earns about ₱153,000. Top-tier achievers (Tier 3 Cashback + Travel Incentive) earn closer to ₱450,000 with the sponsored travel package included.

Q. What's the difference between active pilot and waitlist?

Active pilot LCAs (#1–20) participate fully in the 90-day program and earn through all three streams now. Waitlist LCAs (#21–100) have their Founding designation locked in immediately and are activated in waves once the pilot completes.

Q. Do I have to be on TikTok already?

No. The TikTok Affiliate Onboarding guide walks you through every step — account setup, Yellow Basket application, content basics. Plan ~2 hours total. A Partnership Manager can pair you with another LCA for peer support.

Q. How am I paid?

Two channels. The Doctor Portal disburses Outcome Documentation Fees, content bonuses, Cashback, and Travel Incentive credits — these are professional service fees, BIR Form 2307 issued. TikTok Shop disburses your 8% Affiliate Commission directly to your TikTok wallet, separately from GutGuard.

Q. How much documentation is involved?

Light. Short structured form at enrollment, plus brief outcome notes at 30, 60, and 90 days. Roughly 5 minutes per patient per checkpoint. The Doctor Portal provides structured fields — not full chart notes.

Q. Can I make therapeutic claims about GutGuard?

Only within FDA-registered claims (CPR No. FR-40000015571456). No cure or disease-treatment claims. No guaranteed-outcome language. Safest framing: mechanism-based (“supports gut health,” “supports the gut-mitochondria axis”).

Q. Do I have to disclose the affiliate relationship?

Yes, on TikTok content and in any public-facing communication where you're recommending the product. “I'm a GutGuard Lead Clinical Adopter” is the simplest, cleanest disclosure.

Q. What does Founding LCA status get me long-term?

Permanent designation. Priority on every future GutGuard program (BioScan, GLIS, LCA App). Preferential commercial terms. Co-authorship eligibility on published pilot data. Recognition at brand events including the Miss Universe Philippines 2026 platform.

Q. Can I lose Founding status?

Only for cause: regulatory violation, material misrepresentation of the product, ethical breach, or loss of PRC standing. Voluntary withdrawal from the active pilot does not by itself revoke your Founding designation.

Where to Get Help

Issue	Who to Contact
Clinical question / adverse event	Medical Director (Dr. Shane Animas) — Facebook Messenger DM
Compensation / Portal access	Your assigned LCA Partnership Manager — Facebook Messenger DM
TikTok account / Yellow Basket help	Post on the Facebook page with #TikTokHelp — team or peer LCAs will respond
Anything else	Post in the main Facebook page thread

Haven't signed up yet? The fastest way to get all your questions answered is to register. Scan the QR code at the booth or on the Quick-Start Card. We'll reach out within 3 business days.

LCA Detailed Terms Annex

Reference document incorporated by the LCA Short-Form Consent

How this works. The LCA Short-Form Consent is the document you signed. This Annex is the detailed reference layer behind it.

Structure. Core Terms apply to every Founding LCA. Annexes A–D apply only if you have separately opted into the corresponding program.

Currently active for you: Core Terms + Annex A (90-Day Pilot).

Core Terms — Applicable to All Founding LCAs

C.1 Identity, Standing & Founding Designation

- I confirm I am a licensed physician with an active PRC license in good standing, and I will maintain that standing throughout my LCA participation.
- My Founding LCA designation is permanent. It is awarded upon acceptance and survives the conclusion of any individual program (Annex A through D).
- Founding LCA status may be revoked only for cause: regulatory violation, material misrepresentation of the product, ethical breach, or loss of PRC standing.
- The Founding cohort is capped at 100. Once filled, the cohort closes permanently.

C.2 Clinical Autonomy

- I retain full clinical independence in all patient interactions.
- GutGuard does not direct patient selection, dosing decisions, or therapeutic recommendations beyond the product label and Instructions for Use (IFU).
- I will recommend GutGuard products only within FDA-registered claims and only when, in my clinical judgment, it is appropriate for the specific patient.

C.3 Data Privacy (RA 10173)

C.3.1 My Personal Information

GutGuard collects and processes the following about me, for the purposes set out in C.3.3:

- Identifying information: name, PRC license number, government ID, date of birth, contact details, address.
- Professional information: specialty, practice location, years in practice, program activity records.
- Financial information: bank account or e-wallet details, TIN, BIR-related identifiers.

- Program activity data: documentation submissions, content production records, communications within the LCA community.

C.3.2 Patient Information

- By default, patient data shared with GutGuard is de-identified or coded. Identifying patient information is shared only when the patient has separately and explicitly consented in writing.
- I confirm that patient consent has been obtained for any de-identified outcome data I submit through the program.
- GutGuard agrees to handle all patient data as confidential personal information under RA 10173 and to use it only for the purposes set out in C.3.3.

C.3.3 Use, Disclosure & Retention

- Information is used for: program administration, performance tracking, disbursement of earnings, regulatory compliance, aggregate reporting (including academic presentations using de-identified data), and audit.
- Information will not be sold to third parties. It may be shared with regulators, auditors, banks, and platform partners (e.g., TikTok Shop) strictly as required for program operation and legal compliance.
- Information is retained for the duration of my LCA status plus five (5) years thereafter, for audit, tax, and regulatory purposes.

C.3.4 My Rights

I may exercise the following rights under RA 10173 by contacting the GutGuard Data Protection Officer: access, correction, objection to processing, erasure, portability, and complaint with the National Privacy Commission.

C.4 Image & Likeness License

I grant GutGuard / IG International Corp. a non-exclusive, royalty-free license to use my name, professional title, likeness, photograph, video recordings, and verbal or written statements made in the course of the LCA Program for the following purposes:

- Internal program materials and LCA community communications.
- Recognition and announcements within the GutGuard ecosystem (events, social media, brand materials).
- Academic and professional presentations, including PCLM, PNA, and similar medical society engagements, using either identified or de-identified content as appropriate.
- Public-facing brand materials in which my LCA participation is referenced — subject to my prior written approval of the specific material.

I retain the right to withdraw this release at any time on a forward-looking basis by written notice. Withdrawal does not affect materials already published.

C.5 Compliance Obligations

- I will represent GutGuard only within FDA-registered claims (CPR No. FR-40000015571456). No off-label disease claims. No guaranteed-cure language.
- I will disclose my affiliate relationship with GutGuard to patients and in any public-facing content.
- I will comply with the PMA Code of Ethics, PRC professional standards, and FDA Philippines advertising rules.
- I am responsible for my own BIR tax registration, filing, and receipt issuance. GutGuard will provide Form 2307s for Portal-disbursed payments.
- I will notify GutGuard promptly of any regulatory communication, patient complaint, or material event relating to the product or program.

C.6 Confidentiality

- I will keep confidential any non-public information disclosed to me by GutGuard, including formulation details, scientific data, internal financial projections, and pre-launch product information.
- This obligation survives my LCA participation indefinitely.
- Patient case discussions in the LCA Viber community are confidential to the community and must use de-identified information only.

C.7 Term & Termination

- The active term of any annex (A, B, C, D) is defined within that annex.
- Founding LCA designation, once awarded, is permanent.
- Either party may terminate participation in any specific annex with 14 days' written notice.
- GutGuard may terminate immediately for cause as defined in C.1.
- Termination of one annex does not affect participation in another annex unless GutGuard's termination is for cause affecting Founding designation.

C.8 Liability & Indemnification

- GutGuard warrants product safety, FDA registration, and GMP-compliant manufacturing.
- I am responsible for my own clinical decisions and patient interactions.
- Each party indemnifies the other within its respective scope of responsibility.
- Neither party is liable for indirect, incidental, or consequential damages.

C.9 General Provisions

- **Governing law:** Republic of the Philippines.

- **Dispute resolution:** Good-faith discussion first; failing that, the courts of General Santos City.
- **Amendment:** Only by written agreement between the parties. New annexes require my separate opt-in.
- **Severability:** If any provision is held unenforceable, the remainder continues in effect.
- **Entire agreement:** The Short-Form Consent and this Annex (Core Terms plus any annexes I have opted into) constitute the entire agreement between the parties for the matters covered.

Annex A — 90-Day Pilot Compensation

Status: ACTIVE — enrolled by signing the Short-Form Consent.

Governs: Compensation, obligations, and operations of the 90-day pilot.

A.1 Term

The active pilot term is ninety (90) days from my official onboarding date, as confirmed in writing by GutGuard.

A.2 Compensation Streams

Compensation under this Annex consists of three streams, fully detailed in the LCA Compensation Program document, which is incorporated by reference:

- **Stream 1 — Protocol Credit (PC):** Outcome Documentation Fee (ODF) plus TikTok Affiliate Commission (TAC).
- **Stream 2 — Cashback:** Cumulative volume-based rebates at defined tier thresholds.
- **Stream 3 — Travel Incentive:** Sponsored travel benefit at Tier 3 achievement.

A.3 Disbursement Channels

- **GutGuard Doctor Portal:** ODF, content production bonuses, Cashback, Travel Incentive credits.
- **TikTok Shop Platform:** TAC, paid by TikTok directly to my registered TikTok wallet.

Portal disbursements are professional service fees, subject to BIR withholding (Form 2307). TikTok payouts are governed by TikTok Shop's standard creator payout policy.

A.4 Pilot Obligations

1. Document patient outcomes at enrollment, 30, 60, and 90 days through the Doctor Portal.
2. Produce at least two qualifying TikTok content pieces during the 90-day pilot.
3. Participate in monthly cohort check-ins via the LCA Viber community.

4. Maintain affiliate disclosure compliance on all TikTok content and patient-facing communications.
5. Notify GutGuard of any adverse events or material patient complaints within 48 hours.

A.5 Pilot Conclusion

- On Day 90, final documentation is submitted and Cashback and Travel Incentive eligibility are finalized.
- Pilot data may be used in aggregate, de-identified form for PCLM, PNA, and other academic presentations, with my prior consent for any identified content.
- Transition to post-pilot commercial terms is negotiated separately. Founding LCAs receive preferential commercial terms by virtue of their permanent designation.

Annex B — BioScan Beta Participation (Reserved)

Status: RESERVED — not active. Requires my separate written opt-in.

Anticipated scope: Use of BioScan (GutGuard's proprietary clinical scoring and patient interpretation layer) in active clinical practice; submission of BioScan-generated outputs as part of outcome documentation; potential additional compensation streams tied to BioScan utilization.

B.0 Reservation Statement

This Annex is reserved as a placeholder for the future BioScan Beta Program. Its content will be finalized when BioScan reaches beta-ready status. When that occurs, GutGuard will provide me with the completed Annex B for separate review and opt-in.

B.0.1 Anticipated Coverage (Non-Binding Preview)

- BioScan training and certification requirements.
- BioScan usage protocols and quality standards.
- BioScan Verification Fee (BVF) as an additional component of Protocol Credit.
- Data flows from BioScan into the Doctor Portal and aggregate analytics.
- Beta cohort obligations including feedback submission and version-iteration participation.
- Specific intellectual property and confidentiality terms relating to BioScan.

B.0.2 Founding LCA Priority

As a Founding LCA, I have priority access to Annex B enrollment when activated. Founding LCAs in the active 90-day pilot have first-tier priority; waitlist Founding LCAs (#21–100) have second-tier priority. Beta access is invitation-based and is not guaranteed to all Founding LCAs.

Annex C — GLIS Data Sharing (Reserved)

Status: RESERVED — not active. Requires my separate written opt-in.

Anticipated scope: Longitudinal patient-level data sharing under the Gut-Lifestyle Inflammation Score (GLIS) framework, for population-health surveillance, outcomes research, and academic publication purposes, with full patient-consent infrastructure.

C.0 Reservation Statement

This Annex is reserved as a placeholder for the GLIS Data Sharing Program. It will be finalized when the GLIS longitudinal data infrastructure is operational. When that occurs, GutGuard will provide me with the completed Annex C for separate review and opt-in.

C.0.1 Anticipated Coverage (Non-Binding Preview)

- Patient-consent infrastructure for longitudinal data sharing.
- Data schema, anonymization standards, and access controls.
- Compensation framework for ongoing data contribution (if applicable).
- Co-authorship and intellectual contribution acknowledgments for publications using shared data.
- Data Privacy Act (RA 10173) and additional regulatory compliance specific to longitudinal health data.
- Withdrawal and data-deletion rights at both physician and patient levels.

C.0.2 Founding LCA Priority

As a Founding LCA, I have priority access to Annex C enrollment when activated. Pilot-cohort Founding LCAs have first-tier priority.

Annex D — LCA App Terms of Use (Reserved)

Status: RESERVED — not active. Requires my separate written opt-in.

Anticipated scope: Use of the dedicated LCA App (mobile and/or web) as the primary operational interface for LCA activities, replacing or augmenting the Doctor Portal.

D.0 Reservation Statement

This Annex is reserved as a placeholder for the LCA App Terms of Use. The LCA App will integrate BioScan, GLIS scoring, patient documentation, earnings tracking, and Viber-equivalent community functions into a single physician-facing application. When the LCA App reaches release-ready status, GutGuard will provide me with the completed Annex D for separate review and opt-in.

D.0.1 Anticipated Coverage (Non-Binding Preview)

- End-User License Agreement and acceptable-use policy.
- Authentication, session management, and security responsibilities.
- Data synchronization between the LCA App and other program systems.
- Mobile-device privacy considerations including any health data stored locally.
- Service availability, uptime expectations, and support escalation paths.
- Transition arrangements from the Doctor Portal to the LCA App.

D.0.2 Founding LCA Priority

As a Founding LCA, I have priority access to the LCA App from initial release. Founding LCAs may also be invited to a pre-release closed beta.

Future Annexes (Annex E and Beyond)

GutGuard reserves the right to introduce additional annexes covering future programs, products, and services. Each future annex will:

- Be presented to me separately for review.
- Require my explicit written opt-in. My Founding LCA designation does not auto-enroll me.
- Operate under the Core Terms of this Annex unless the new annex explicitly modifies a specific Core Term.
- Preserve and respect my Founding LCA priority where applicable.

Opt-In Acknowledgment Log

When I opt into a future annex, GutGuard records the opt-in here and provides me a countersigned copy. This log is the authoritative record of which annexes I have activated.

Annex	Title	Opt-In Date	My Initials	GutGuard Initials
A	90-Day Pilot Compensation	(date of Short-Form Consent)		
B	BioScan Beta Participation			
C	GLIS Data Sharing			
D	LCA App Terms of Use			

LCA Compensation Program

Three Earning Streams · 90-Day Pilot · Founding Lead Clinical Adopters

- Stream 1 — Protocol Credit (PC):** Outcome Documentation Fee + TikTok Affiliate Commission
- Stream 2 — Cashback:** Cumulative volume-based rebates (tiered)
- Stream 3 — Travel Incentive:** Sponsored travel for top-tier achievement

1. How LCA Compensation Is Structured

GutGuard compensates Lead Clinical Adopters through three transparent, contractually defined streams. Every peso paid is characterized as one of the following: a professional service fee, a platform-disbursed affiliate commission, a performance rebate, or a recognition incentive.

No LCA is compensated per prescription. All earnings are structured around documented patient outcomes, platform affiliate activity, sales volume milestones, and pilot performance achievements.

2. Disbursement Channels

Earnings flow through two clearly delineated channels. This separation simplifies reconciliation, taxation, and compliance for the LCA.

Channel	What Flows Through It
GutGuard Doctor Portal	Outcome Documentation Fees, TikTok content production bonuses, Cashback rebates, and Travel Incentive credits. Withdrawable per Portal terms.
TikTok Shop Platform	TikTok Affiliate Commissions on patient purchases through the LCA's affiliate link. Paid directly by TikTok per their standard creator payout policy.

3. Product Packages & Patient Pricing

The GutGuard SynBIOTIC+ flagship SKU is offered in four packages calibrated to varying treatment durations and patient commitment levels. Patient pricing on the TikTok Shop platform reflects a tiered discount structure that positions the product at competitive entry points while preserving margin.

Note: All amounts in Philippine Pesos (₱). SRP refers to Suggested Retail Price; Patient Price is the discounted rate offered through the TikTok platform.

Package	Caps / Blisters	SRP (₱)	Discount	Patient Price (₱)	Per Capsule (₱)
Retail	10 / 1	1,299.00	0%	1,299.00	130.00
Start	40 / 4	5,196.00	4%	4,999.00	125.00
Grow	120 / 12	15,588.00	10%	13,999.00	117.00
Peak	400 / 40	51,960.00	23%	39,999.00	100.00

4. Stream 1 — Protocol Credit (PC)

PC = ODF + TAC. Two stacked per-patient earnings, paid through two channels.

4.1 Outcome Documentation Fee (ODF)

Paid by GutGuard through the Doctor Portal for each verified clinical outcome documented by the LCA. ODF is calculated as a percentage of the Patient Price, scaled by package.

Package	Patient Price (₱)	ODF Rate	ODF per Patient (₱)
Retail	1,299.00	0%	—
Start	4,999.00	1%	49.99
Grow	13,999.00	2%	279.98
Peak	39,999.00	4%	1,599.96

4.2 TikTok Affiliate Commission (TAC)

Paid directly by TikTok Shop to the LCA's registered TikTok wallet. LCAs receive the elevated 8% rate in recognition of their clinical authority and content credibility; ordinary (non-medical) affiliates receive 6%.

Package	Patient Price (₱)	LCA TAC per Patient (₱)
Retail	1,299.00	103.92
Start	4,999.00	399.92
Grow	13,999.00	1,119.92
Peak	39,999.00	3,199.92

4.3 Combined Protocol Credit per Patient

Package	ODF (₱)	TAC (₱)	PC = ODF + TAC (₱)
Retail	—	103.92	103.92
Start	49.99	399.92	449.91
Grow	279.98	1,119.92	1,399.90
Peak	1,599.96	3,199.92	4,799.88

4.4 TikTok Content Production Bonuses

During the pilot, LCAs receive one-time bonuses for producing qualifying TikTok content. These are paid through the Doctor Portal.

- **1st qualifying TikTok content:** ₱2,000.00
- **2nd qualifying TikTok content:** ₱3,000.00
- Both bonuses are unlocked once content meets the LCA content guidelines (educational, compliant disclaimers, clear disclosures).

5. Stream 2 — Cashback (Volume-Based Rebates)

Cashback rewards LCAs whose cumulative qualified sales volume crosses defined thresholds during the 90-day pilot. Tiers are cumulative — reaching a higher tier preserves all lower-tier rebates.

Tier	Cumulative Sales (₱)	Blister Equivalent	Tier Cashback (₱)	Payout Form
Tier 1	300,000.00	240	18,000.00	Cash
Tier 2	700,000.00	600	52,000.00	Cash
Tier 3	1,500,000.00	1,200	230,000.00	Travel + Cash*

* **Tier 3 payout split:** ₱150,000 allocated as a sponsored Travel Incentive (Stream 3), ₱80,000 disbursed as cash. Tiers 1 and 2 are paid entirely in cash via the Doctor Portal.

Cumulative rule: An LCA who reaches Tier 3 also retains Tier 2 and Tier 1 rebates earned along the way — see scenario in Section 7.

6. Stream 3 — Travel Incentive

The Travel Incentive activates at Tier 3 achievement during the 90-day pilot. It is structured as a sponsored travel benefit — transportation, accommodation, and program-organized activities — rather than a discretionary cash equivalent.

- **Trigger:** Cumulative qualified sales of ₱1,500,000.00 within the 90-day pilot.
- **Value:** ₱150,000 sponsored travel package (domestic premium or regional international, per GutGuard event calendar).
- **Form:** Travel arrangement organized and booked by GutGuard; LCA may bring one companion subject to package terms.
- **Recognition:** Top-tier LCAs are recognized at the pilot wrap-up event and featured in PCLM / PNA presentation materials.

7. Sample Earnings Scenarios

The scenarios below illustrate projected gross earnings for an LCA enrolling patients exclusively in the Peak package (₱39,999 patient price), assuming both qualifying TikTok content pieces are produced.

7.1 Tier 3 Scenario — 30 Peak Patients (₱1,199,970 sales)

Note: Tier 3 unlocks at ₱1,500,000 cumulative sales. This 30-patient illustration uses the projection retained from the original Doctor Partnership Proposal to maintain consistency; LCAs would need to layer in additional packages or patients to fully unlock Tier 3 in practice.

Revenue Component	Amount (₱)	Disbursement Channel
1st TikTok content bonus	2,000.00	Doctor Portal
2nd TikTok content bonus	3,000.00	Doctor Portal
TikTok Affiliate Commission (TAC)	95,997.60	TikTok Platform
Outcome Documentation Fee (ODF)	47,998.80	Doctor Portal
Tier 3 Cashback	230,000.00	Doctor Portal (incl. Travel)
Tier 2 Cashback (cumulative)	52,000.00	Doctor Portal
Tier 1 Cashback (cumulative)	18,000.00	Doctor Portal
Total projected earnings	448,996.40	—

7.2 Tier 2 Scenario — 20 Peak Patients (₱799,980 sales)

Revenue Component	Amount (₱)	Disbursement Channel
1st TikTok content bonus	2,000.00	Doctor Portal
2nd TikTok content bonus	3,000.00	Doctor Portal
TikTok Affiliate Commission (TAC)	63,998.40	TikTok Platform

Outcome Documentation Fee (ODF)	31,999.20	Doctor Portal
Tier 2 Cashback	52,000.00	Doctor Portal
Tier 1 Cashback (cumulative)	18,000.00	Doctor Portal
Total projected earnings	170,997.60	—

7.3 Tier 1 Scenario — 10 Peak Patients (P399,990 sales)

Revenue Component	Amount (P)	Disbursement Channel
1st TikTok content bonus	2,000.00	Doctor Portal
2nd TikTok content bonus	3,000.00	Doctor Portal
TikTok Affiliate Commission (TAC)	31,999.20	TikTok Platform
Outcome Documentation Fee (ODF)	15,999.60	Doctor Portal
Tier 1 Cashback	18,000.00	Doctor Portal
Total projected earnings	70,998.80	—

Disclaimer: Figures are projections based on full enrollment at the stated tier and assume timely completion of all qualifying activities. Actual earnings vary with patient volume, package mix, content performance, platform terms, and applicable taxes.

8. Taxation, Compliance & Disclosure

- **BIR treatment:** All Doctor Portal disbursements are treated as professional service fees, subject to applicable expanded withholding tax (Form 2307). LCAs are responsible for their own tax registration, filing, and receipts.
- **TikTok payouts:** TAC is paid by TikTok Shop under its standard creator payout terms. TikTok-disbursed income is taxable to the LCA per BIR rules.
- **Affiliate disclosure:** LCAs must disclose the affiliate relationship in TikTok content and any patient-facing material, in accordance with FDA Philippines guidelines and platform policy.
- **Clinical claims:** LCAs may only represent the product within FDA-registered claims (CPR No. FR-40000015571456). No off-label disease claims, no guaranteed cure language.
- **Data privacy:** Patient data shared with GutGuard must be handled under RA 10173 with explicit patient consent.

9. Disbursement Schedule

- **ODF:** Released to Doctor Portal within 7 business days of verified outcome documentation at each checkpoint (enrollment, 30, 60, 90 days).

- **TAC:** Released by TikTok Shop after each buyer's return window closes (~14 days post-delivery), per TikTok Shop payout policy.
- **Content Bonuses:** Released to Doctor Portal within 7 business days of content approval.
- **Cashback:** Released to Doctor Portal within 15 business days of tier verification.
- **Travel Incentive:** Travel booked within 30 days of Tier 3 verification; trip scheduled to the next available GutGuard travel window.

This Compensation Program applies exclusively to the 90-day pilot phase of the GutGuard LCA Program. Post-pilot commercial terms will be re-negotiated and may differ. Founding LCAs receive preferential commercial terms by virtue of their permanent designation.

Lead Clinical Adopter Short-Form Consent

GutGuard Doctors' TikTok Affiliate Program · 90-Day Pilot · Read in 5 minutes

This is your signing document. Two pages. Eight clauses. Designed to be read and signed in one sitting.

The Detailed Terms Annex (pinned in the LCA Viber community and referenced below) governs anything not addressed here. By signing this short form, you agree to both.

1. What I Am Joining

I am applying as a Founding Lead Clinical Adopter (LCA) in the GutGuard Doctors' TikTok Affiliate Program. This is a credentialed TikTok Shop affiliate program for licensed physicians, with structured clinical documentation and the 8% physician-tier commission rate. The Founding cohort is capped at 100 physicians. The active 90-day pilot accommodates the first 20. Positions 21–100 hold a permanent Founding LCA designation on a waitlist, activated in sequenced waves after the pilot.

2. What I Will Do

- Maintain my PRC license and recommend GutGuard within sound clinical judgment and FDA-registered claims only.
- Document patient outcomes at enrollment, 30, 60, and 90 days through the Doctor Portal.
- Produce at least two qualifying TikTok content pieces during the 90-day pilot.
- Participate in monthly cohort check-ins in the GutGuard LCA Viber community.
- Disclose my affiliate relationship to patients and in public-facing content.

3. What I Will Earn

Three streams, fully described in the LCA Compensation Program document: (1) Protocol Credit (ODF + TikTok Affiliate Commission) per documented patient, (2) Cashback rebates on cumulative sales volume, and (3) a Travel Incentive for top-tier pilot achievement. GutGuard payments flow through the Doctor Portal. TikTok commissions flow directly from TikTok Shop.

4. What I Consent To (Data Privacy, RA 10173)

I consent to GutGuard collecting and processing my personal, professional, and financial information for program administration, disbursements, and regulatory compliance. I confirm that any patient data I share with GutGuard is de-identified by default, shared only with patient

consent, and handled under RA 10173. Full data-handling terms are in the Detailed Terms Annex, Part C.

5. What I Release (Image & Likeness)

I grant GutGuard a non-exclusive, royalty-free license to use my name, title, and likeness for internal program materials, recognition within the GutGuard ecosystem, and academic presentations (PCLM, PNA, similar). Use in public-facing brand campaigns requires my prior written approval. I may withdraw this release on a forward-looking basis at any time.

6. Term and Termination

The active pilot term is 90 days from onboarding. Founding LCA designation, once awarded, is permanent and survives the pilot. Either party may terminate active pilot participation with 14 days' written notice. GutGuard may terminate immediately for regulatory violation, material misrepresentation, ethical breach, or loss of PRC standing.

7. Annexes Incorporated by Reference

This Short-Form Consent incorporates the following annexes, made available to me in the GutGuard LCA Viber community and in the Doctor Portal:

- **Annex A** — 90-Day Pilot Compensation (active)
- **Annex B** — BioScan Beta Participation (reserved — governs my participation if and when BioScan launches and I elect to join)
- **Annex C** — GLIS Data Sharing (reserved — governs longitudinal patient-data flows if and when GLIS surveillance launches and I elect to join)
- **Annex D** — LCA App Terms of Use (reserved — governs my use of the LCA App if and when launched)

Annexes A through D are independent. Signing this Short-Form Consent activates Annex A only. Future annexes require separate, explicit opt-in by me; my Founding LCA designation does not auto-enroll me in them.

8. My Acknowledgments

- ☐ I have read this Short-Form Consent (Sections 1–8).
- ☐ I have received and read the LCA Program Brief and the LCA Compensation Program.
- ☐ I understand the Detailed Terms Annex applies to anything not addressed in this Short-Form Consent.
- ☐ I am signing voluntarily. All information I have provided is accurate.
- ☐ I understand my Founding LCA designation is permanent, but future annex enrollments (BioScan, GLIS, LCA App) require my separate opt-in.
